SENTINEL PARADISE INC.

Management Consulting, CMMC/NIST 800-171 & ISO 42001 AI Governance

CAPABILITY STATEMENT
NAICS 541611 | 541512 | 541690
100% WOSB | 8(a) Eligible | Public Trust

Corporate Overview: Sentinel Paradise Inc. is a specialized management consulting and technical compliance firm delivering strategic governance, system architecture, and independent auditing for defense contractors, federal suppliers, and enterprise organizations. As commercial and defense sectors rapidly transition to utilizing artificial intelligence, machine learning, and automated decision systems, Sentinel Paradise bridges the critical gap between CMMC Level 2 / NIST SP 800-171 CUI enclaves and high-value ISO 42001 AI management systems. Backed by certified ISO 42001 Lead Auditor credentials and deep full-stack web application engineering leadership, we enable organizations to build compliant CUI enclaves, establish AI governance under OMB M-25-21, and maintain continuous audit-readiness.

CORE COMPETENCIES

- **Management & Tech Consulting (NAICS 541611 / 541690):** Specialized consulting services for CMMC Level 2, NIST SP 800-171 SSP development, POA&M oversight, and high-value ISO 42001 AI management system implementations.
- **ISO 42001 AI Governance & Auditing:** Certified Lead Auditor advisory, algorithmic bias assessments, model telemetry evaluations, and compliance aligned with OMB M-25-21 standards.
- **Program Enclave Architecture:** Design and deployment of zero-trust CUI program enclaves (PreVeil/TRC) isolating compliance boundaries from legacy corporate IT networks.
- **Full-Stack Web & Application Security:** Hands-on technical leadership in web development, secure cloud application deployments, API security protocols, and encrypted transmission controls.

KEY DIFFERENTIATORS

- **Certified ISO 42001 Authority:** Credentialed Lead Auditor expertise driving high-margin management consulting engagements for AI risk frameworks and corporate governance.
- **Full-Stack Engineering Depth:** Technical leadership spanning executive web application development, cloud interface design, and API security—bridging policy paperwork with code-level execution.
- **Sole-Source Procurement Agility:** Direct-award ready as a 100% Woman-Owned Small Business (WOSB) with 8(a) eligibility thresholds under FAR 19.1506.
- **Absolute Auditor Independence:** Structurally separated operational vCISO management from independent assessment roles to ensure strict, audit-ready compliance.

PAST PERFORMANCE & CAPABILITIES

- **Mack's Goods LLC (Defense Sector):** Engineered a CMMC Level 2 "Program Enclave" and FutureFeed GRC structure for aerospace component kitting supporting C-130 and UH-60 DoD solicitations.
- **Dreamers Inc. (Aerospace & Defense AI Frameworks):** Conceptualized and engineered specialized mathematical models and security architectures for sensor calibration and defense system logic.
- **WINZER Franchise SSP Stewardship & Mobile Hardening:** Developed comprehensive System Security Plan (SSP) governance and mobile endpoint security protocols (MDM/MAM, zero-trust containerization, and access controls) for WINZER franchise operations.

COMPANY PROFILE & DATA

Legal Structure	Corporation (100% Woman-Owned)
Socio-Economic	WOSB | EDWOSB / 8(a) Eligible
Clearance Status	Public Trust Eligible (SF-85P)
CAGE Code	**23T41**
UEI	**L1Y3SAM1LMC9**
Primary NAICS	541611 (Management Consulting)
Secondary NAICS	541690, 541512, 541519, 611430
Certifications	ISO/IEC 42001 Lead Auditor
